FEATURED DATASET: ENVIRONMENTAL PROTECTION AGENCY (EPA) EPA Toxic Release Inventory

The Toxics Release Inventory (TRI) is a publicly available EPA database that contains information on toxic chemical releases and waste management activities reported annually by certain industries as well as federal facilities. The TRI is available for each state for years 2005, 2006 and 2007.

Welcome to Data.gov

The purpose of Data.gov is to increase public access to high value, machine readable datasets generated by the Executive Branch of the Federal Government. Although the initial launch of Data.gov provides a limited portion of the rich variety of Federal datasets presently available, we invite you to actively participate in shaping the future of Data.gov by suggesting additional datasets and site enhancements to provide seamless access and use of your Federal data. Visit today with us, but come back often. With your help, Data.gov will continue to grow and change in the weeks, months, and years ahead.

How to use Data.gov

Data.gov includes searchable [data catalogs](#) providing access to data in three ways: through the "raw" data catalog, the tool catalog and the geodata catalog. Please note that by accessing datasets or tools offered on Data.gov, you agree to the [Data Policy](#), which you should read before accessing any dataset or tool. If there are additional datasets that you would like to see included on this site, please [click here](#). For more information on how to use Data.gov, [view our tutorial](#).
