

Kevin T. Gallagher
Associate Director, Core Science Systems
U.S. Geological Survey

Mr. Gallagher serves as the Associate Director, Core Science Systems and oversees the USGS' Geologic Mapping, Geological and Geophysical Data Preservation, Geospatial, Biological Information, and Science Informatics Programs as well as the world's largest Earth Science Library.

From 2002-2010, Mr. Gallagher served as the USGS Chief Information officer and Chief Technology Officer where he oversaw the operation of information technology systems and networks supporting bureau wide computing and telecommunications.

Before joining the USGS, Mr. Gallagher held a number of information technology and management positions at various Federal agencies, including Chief, Operations Division, U.S. Coast Guard Operations Systems Center, where he oversaw the development and operations of computer systems supporting Search and Rescue, Environmental Protection, Marine Safety, and Law Enforcement; and Software Developer with the Department of the Navy and Naval Research Laboratory, where he developed computer applications supporting Research and Development and Environmental Preparedness, Prevention and Response.

Mr. Gallagher has written articles on software development and the role of information technology in enhancing mission performance and has co-authored a number of strategic plans including the USGS 10-year science strategy entitled, *Facing Tomorrow's Challenges, U.S. Geological Survey Science in the Decade 2007-2017*.

Mr. Gallagher holds a Master of Science, Information Systems degree from Syracuse University, a Chief Information Officer Certificate from the National Defense University, and a Bachelor of Science degree in Management Information Systems from James Madison University. He has also completed the Harvard Senior Executive Fellows Program at Harvard University.
