

ESIP Membership Application

Response ID:64 Data

1. Contact Information

1. Primary Contact

First Name**Name**

Tess Mayall

Title

Community Manager

Organization

Science Exchange

Street Address

555 Bryant St., #939

Apt/Suite/Office**City**

Palo Alto

State

California

Postal Code

94301

Country**Email Address**

tess@scienceexchange.com

Phone Number

8313450055

Fax Number**Mobile Phone****Website**

2. Designated Assembly Representative (if different from primary contact)

3. Please add any alternate or proxy assembly representatives, if available.

2. About Your Organization

4. Please give a main website address for the proposed Partnership:

<https://www.scienceexchange.com/>

5. Describe your organization's role in the Earth science community

We provide access to thousands of laboratory facilities through our online marketplace to encourage collaboration and connectivity among scientists.

6. Please describe your organization's Earth science data/technology activities.

We are an online startup and focused on creating an online marketplace that enables scientists to connect virtually. This includes sharing expertise, info, and data.

7. What are the primary sources of your funding?

Venture capital

3. How will your organization benefit from or contribute to the Earth Science Information Partners (ESIP) Federation

8. Describe current or anticipated users of your products and services and how you think the Federation can help you better serve this population.

Our current users are mostly in the life sciences. However, we are actively expanding to environmental and earth sciences. The Federation can help us learn how to better serve this audience.

9. Describe technologies that you have developed and are willing to share with the Federation?

We have created a scientific ontology that we would be willing to share with the group.

10. Describe how you can contribute to the efforts of one or more standing committees, working groups and/or clusters? (200 words or less)

I could contribute to the Climate Education Working Group and/or the Education Committee. Also, any other community driven groups.

11. Describe your own use of Earth science information and data and how you would see this use enhanced by your partnership in the Federation.

I previously used ice core and cave records in my graduate research. Currently, I do not regularly use Earth science information.

12. Select membership type

ESIP-III (primarily applications and education)

4. Other comments?

Any other comments about your proposed membership and its relation to the Federation that you wish to provide.
