What do storytelling, soils data standards, and research data lifecycle have in common?

ESIP Agriculture and Climate Cluster!

Co-chairs
Bill Teng (William.L.Teng@nasa.gov)
Nancy Hoebelheinrich (nhoebel@kmotifs.com)

A simple one-sentence, fill-in-the-blanks template can help you identify a story structure

(main characters)

(Note)

(BUT)

(THEREFORE)

(Obstacle)

(Solution)

Scenario planning to promote resilience in beef production

Northern Plains Climate Hub

Southwest Climate Hub

USDA Agricultural Research Service

USDA Climate Hubs

U.S. Department of Agriculture

Data to decisions provenance: ESIP Lab project to encode provenance for CRT case studies

2019 ESIP Winter Meeting:
Session on “Soils data integration challenges throughout the research lifecycle”

2019 ESIP Summer Meeting:
Workshop on Soils Data Standards
July 18, 2019
Tacoma, WA

Poster design: Eleanor Davis, University of South Carolina, 2018-2019 ESIP Community Fellow
